

Thank you so much for helping to maintain your “home-away-from home”!!!!

The CWC Cleaning Staff: Jean, Holly Lee, Denae, Craig, Jeanine & Kennadi extend a heartfelt “**BLESS YOU!**” for any assistance you can give to help clean up your cabin.

All cabins have vacuums, brooms, all-purpose Peppermint cleaning solution and non-toxic Glass/Carpet spot cleaner for your use during your stay with us. Ask for more garbage bags or vacuum bags if you need them.

☺ NOTE: the liquid **peppermint** cleaners are all-natural and if you like ‘em, we sell some in the lodge. Plus, you don’t have to worry if your kid gets into it and gulps it down accidentally. (Well, okay . . . they might have the runs for a few minutes, but hey! You don’t have to call the poison control center, or pump their stomachs, or make ‘em upchuck or anything. No big deal. They might smell like a candy cane and whine on the toilet for a few minutes, but in the time you can roast a marshmallow, they should be “good to go” and have learned their lesson. ☺)

**EXAMPLES OF HELPFUL STUFF:** **Departure by 12 high noon!** Unless weekly summer guest, then depart by 3 p.m. Friday

- For weekly summer stays, you need to pull your boat by noon on Friday (the boat ramp will be blocked with cleaning staff traffic.)
- don’t bother stripping your used beds. REALLY. ☺ (We won’t tell Gramma, we promise.) Leave any sofa bed sheets in plain sight on top of a sofa so we’ll know they need a wash.
- Wash any and all dishes you used and *put ‘em back where they live*.
- look under beds, sofa cushions, behind doors for toys, clothes, chargers & trash before u leave
- if there’s grease in your stovetop can, stick it in the freezer overnight and then place in the garbage, so it won’t ooooooze. Lcky-poo! (‘Course if you wanna see a bear or a raccoon up close, you could always dump the bacon grease over your brother’s head and send him on a nature walk. Follow with camera . . . )
- take your garbage down to the dumpsters next to lodge (fenced-in area across from Sleeping Cottage/boat ramp/lodge. TIP: never leave garbage outside your cabin overnight or the wild critters will be tempted to teach you the valuable lesson-game of “pick-up.”)
- please toss only recycle stuff in the recycling bin outside your cabin, **not** garbage. We do have a separate cardboard-only dumpster located along the boat ramp, just FYI. We also have a separate bin for paper. All other recycling - cans, plastic, metal - can be co-mingled in provided cans just outside your cabin.
- any assistance is most welcome in helping to pick up litter, cigarette butts, candy wrappers, balloon bits, cap gun wheels, etc. around your cabin perimeter from your stay.
- PICNIC TABLES/cabin furniture, plastic deck chairs: if you move them, put them back – we are not enthusiastic about moved cabin furniture (***never*** move a stove/oven or refrigerator, please) but if you need to accommodate your group better, feel welcome to do so. We only ask YOU PUT IT BACK WHERE IT LIVES, thanks.
- Dishes and flatware used at other cabins for group get-togethers: if you move them from one cabin to another, put them back. Eat together, be merry. Just please remember to bring back to your cabin whatever you took out (okay, this is the biggest pet peeve on the list, largely from the next guest. When they only have 1 fork in their cabin, they tend to get a bit vexed. If you have a full set of dishes, send a grateful prayer out to God or the universe or whoever to thank last week’s guests for being so thoughtful to you!) 😊
